Stendal Collection

## L&C stendal

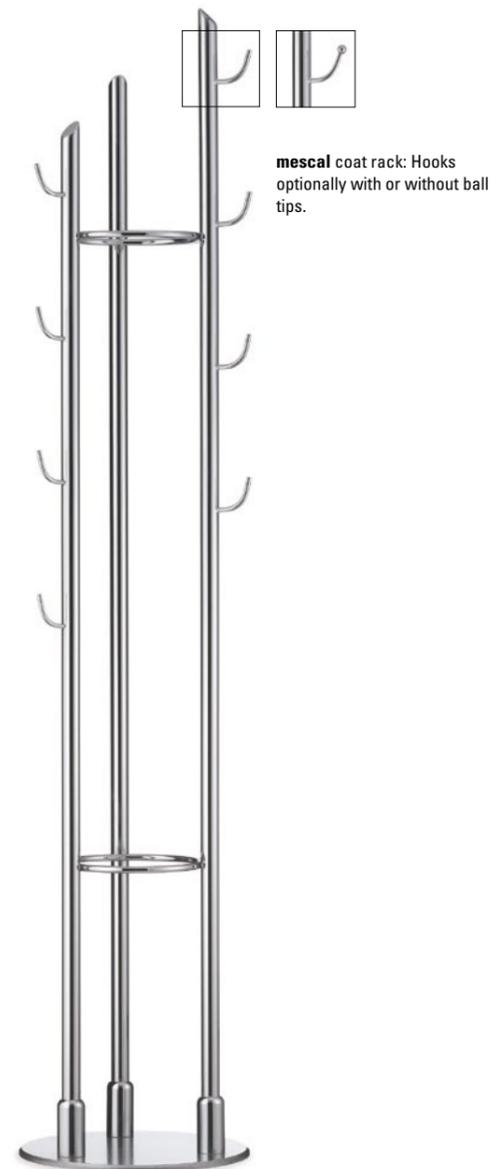

→ In 1889 the ironmonger **Louis Arnold** and his son **Carl** founded the iron furniture factory in **Stendal**. → By 1926, the Arnold factories have emerged as **Europe's leading manufacturer of tubular steel furniture**: day-in, day-out, 1,400 workers turn out 1,200 pieces of garden furniture, 1,200 tubular steel bedsteads and 600 other pieces. → 1927 L. & C. Arnold show a collection developed by Mart Stam and made by Arnold, comprising **the first ever chair with no back legs** (cantilever chair). Designs from other Bauhaus artists were also executed. → 1936 the **airship Hindenburg** (LZ 129) is equipped with aluminium seating from L. & C. Arnold. → Following 1945, the Stendal factory is nationalised as "public property" and begins operating under the name of VEB STIMA. Chairs, tables and beds are manufactured for domestic GDR requirements and for export. → 1986/1987 L. & C. Arnold (VEB STIMA) makes more than a thousand chairs, armchairs and tables to furnish the historic **Bauhaus school in Dessau**. → After the reunification in 1989, the company gained a foothold once more in the German and European market. → Several classic Bauhaus pieces were revived in the **Arnold Bauhaus Collection**. Among other things, the historic Bauhaus refectory in Dessau was refurbished with tubular steel stools designed by Marcel Breuer and produced by L. & C. Arnold Stendal. → Later the **Stendal Collection** – re-editions from the fifties and new designs – augmented the L. & C. Arnold programme. → Since 1997 the company has been known as **L&C stendal**. Our range of products encompasses tables and chairs for public premises, high-capacity seating systems, supplementary furniture such as shelving, stools, coat racks etc., as well as high-quality Bauhaus pieces. # mescal | crown | butler

The **mescal** coat rack echo the shapes of the candelabra cacti of the Mexican desert. But instead of threatening thorns, the **mescal** has hooks to receive your coats, jackets, scarves and hats.

**mescal** is a free-standing coat rack with standard „branches“ which is extremely stable; thus no further stabilisation is necessary.

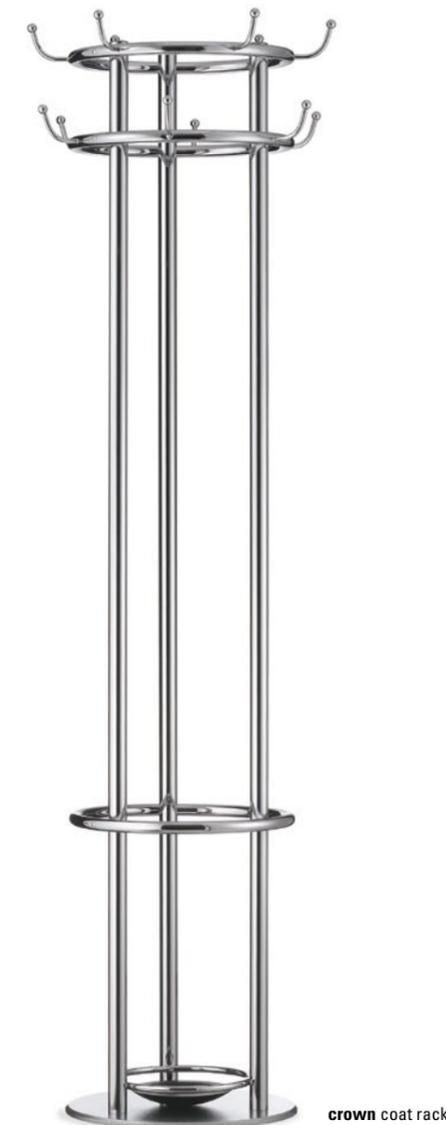

**mescal**  
Design: L&C stendal, 1995.

Model 1680: Proprietary design by L. & C. Arnold Stendal, 1934.

With its reissue of the **crown** coat rack in 2004 L&C stendal gave a nod to the heritage of the 1920s and 30s, a period when renowned architects of the Bauhaus school entrusted the implementation of their designs to L. & C. Arnold in Stendal. This re-launched model emphasises high aesthetic standards, without neglecting contemporary functional demands.

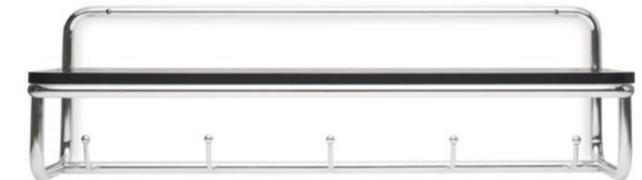

**crown**  
Design: L&C stendal, 2004.

**crown** coat rack.

The **butler** wall-mounted coat rack is L&C stendal's homage to their 1920s/30s past. Five coat hooks and a capacious hat rack for the convenience of you and your visitors.

**butler**  
Design: L&C stendal, 2004.
