--	--	--	--	--

Frame

Sled-base element of an integral tubular frame 20 x 2 mm, seat and backrest element are on moveable bearings and correspondingly synchronised in their ergonomics; they thus offer variously relaxing positions to the seated person.

Surface

Chrome (20 µm Bright Nickel + 5 µm Chrome)

Upholstery

Upholstery with a durable, elastic and breathable membrane, surround-upholstered with high-quality materials.

Tinta of 100% virgin wool (in 43 colours, fabric group 3) or high-quality leather (in 7 colours, furniture upholstery leather corresponds to the product quality guidelines of the German furniture industry)

Fixtures

plastic gliders

armchair with or without two external side pockets

Table Top

moulded steel plate

coated with a textured powder in black or white

Stendal Collection

L&C stendal

→ In 1889 the ironmonger **Louis Arnold** and his son **Carl** founded the iron furniture factory in **Stendal**. → By 1926, the Arnold factories have emerged as **Europe's leading manufacturer of tubular steel furniture**: day-in, day-out, 1,400 workers turn out 1,200 pieces of garden furniture, 1,200 tubular steel bedsteads and 600 other pieces. → 1927 L. & C. Arnold show a collection developed by Mart Stam and made by Arnold, comprising **the first ever chair with no back legs** (cantilever chair). Designs from other Bauhaus artists were also executed. → 1936 the **airship Hindenburg** (LZ 129) is equipped with aluminium seating from L. & C. Arnold. → Following 1945, the Stendal factory is nationalised as "public property" and begins operating under the name of VEB STIMA. Chairs, tables and beds are manufactured for domestic GDR requirements and for export. → 1986/1987 L. & C. Arnold (VEB STIMA) makes more than a thousand chairs, armchairs and tables to furnish the historic **Bauhaus school in Dessau**. → After the reunification in 1989, the company gained a foothold once more in the German and European market. → Several classic Bauhaus pieces were revived in the **Arnold Bauhaus Collection**. Among other things, the historic Bauhaus refectory in Dessau was refurbished with tubular steel stools designed by Marcel Breuer and produced by L. & C. Arnold Stendal. → Later the **Stendal Collection** – re-editions from the fifties and new designs – augmented the L. & C. Arnold programme. → Since 1997 the company has been known as **L&C stendal**. Our range of products encompasses tables and chairs for public premises, high-capacity seating systems, supplementary furniture such as shelving, stools, coat racks etc., as well as high-quality Bauhaus pieces.
